On January 1, 2011, a new era for DME began.

Whether the DME competitive bidding program fails or survives, the way the DME industry operates will change forever and NAIMES wants to be your national association of choice to help DME services be a part of the future of healthcare.

The goals of NAIMES for 2011 are:

- Work to repeal competitive bidding.
- Work to repeal the cap on oxygen payments.
- Represent independent suppliers to Congress in their home districts.
- Help suppliers develop relationships with their legislators.
- Work with Congress to redefine the DMEPOS benefit to meet 21st century goals for consumers.

DME suppliers need strong leadership and representation at the national level and we intend to be that in 2011, BUT we cannot do that without members and the dues to provide us with the resources we need to fight for the industry.

We challenge every DME supplier to spend \$350 to help us win the fights and work to protect you. Our membership of progressive suppliers must grow to thousands. \$350 per year is a small price to pay and equates to less than .95 cents a day.

Step up and take the challenge! Let's roll back to the year 2000 when our namesake had over 4000 members. Join NAIMES and give us that kind of clout back. **Our guarantee to YOU!** We will listen and you will have a voice in an association led by peers and driven by the needs of the industry.

Go to www.dmehelp.org and click on join. Complete the membership application and fax, mail or email it to us with payment by check or credit card.

Don't wait for big promises that never come through. Join us now!
